5 Bespoke wooden furniture
TEAM 7

Using the finest wood from sustainably managed forests in Europe, TEAM 7's furniture provides a stylish focal point to spa changing rooms or suites.

The distinctive Aye chair and Nox bench (top) by Jacob Strobel combine modernity and traditional craftsmanship, with the bench being available in seven types of wood and three metal surfaces – matte, shiny chrome and palladium coloured.

Other products include the modular Cubus Pure interior range (above), designed by Sebastian Desch, which can be combined with shelving in a range of customised options.

The Waldkante wall panel showcases the natural beauty of wood to optimum effect and is available in alder and oak, while the multi-functional Sidekick side table (above right), by Stefan Radinger can be left free-standing, arranged as part of a group, or used as a table, whose top can be tilted towards the user to ensure optimum ergonomics.

6 Artificial grass
Lawn Perfection

Specialising in high-quality artificial grass installations, Lawn Perfection has developed its offering to include a range of grasses that look incredibly realistic while also offering a practical surface underfoot.

Guaranteed for ten years and suitable for use over decking at pool side, the grass can be installed both inside and outside, and can even be hung on walls.

Said to be soft and thick, the company's preferred supplier is Grono, whose artificial grass doesn't require a sand infill and is UV stable to ensure it won't fade in the sun.

7 Unique wall coverings
Glamora

From Italian company Glamora comes a range of bespoke vinyl wall coverings that are ideal for an interior focus wall.

All of Glamora's wall-coverings feature original graphics and are washable, anti-bacterial, fire-resistant and eco-friendly as they are printed with water-based inks.

To enable spas to develop exclusive motifs, Glamora's in-house designers can supply exclusive looks that reflect individual styles. All standard graphics are personalised to blend seamlessly with the surrounding interior palette and existing colours of furnishings, walls and floors.

Glamora also offers a selection of capsule collections designed by leading contemporary designers and artists as well as up-and-coming talent drawn from around the world.
