The country's leading designers usher a British institution into a new era

CASAMANCE
Visconti

The Visconti range by Casamance recreates the atmosphere of Paris' Saint-Germain-des-Prés quarter with sumptuous materials, and reinterprets the maze of its streets with a series of geometric designs. Combining modern and elegant textures with graphic motifs that appear animated with movement, Visconti is available in bespoke colourways of Verneuil jaune or, Conti champagne and Montalembert jaune or, as well as Buci anglais, Montalembert caraibe and Jacob vert de gris.

NANIMARQUINA
Blur

Designed by Ronan and Erwan Bouroullec, Nanimarquina's Blur rug offers two different readings. When viewing the rug from afar, an unfocused surface is apparent, while on approaching, lines and rhythmic rhombuses are revealed. The blurred effect has been achieved by inverting how the kilims are traditionally woven, mixing two colours unevenly to create an aged piece reminiscent of the past. Handmade in Pakistan, the collection comprises four colours: blur, black, green and red.

GLAMORA
GlamFusion

Glamora has introduced a new prefinished wallpaper that eliminates the need for waterproof treatment by the installer. GlamFusion is lightweight and ultra-thin, meaning it can be applied on top of existing materials, while its flexibility allows for in-position trimming. Soft and silky to the touch, the range also details botanical motifs through macro graphics and vanishing shadows.

LINCRUSTA
Tropical Leaf

A nod to traditional bohemian schemes, the Tropical Leaf collection by Lincrusta features a deep texture that works harmoniously with both bright block colours and soft earthy hues. Drawing inspiration from the natural world as well as British design icons, the wallcovering series combines current trends with themes from Lincrusta's 140-year history using contemporary floral details and timeless repeats.
